December 19, 2017

I would like to take this opportunity to tell you about our experience with the Attitudes In Reverse presentation by Tricia Baker. Tricia came to our School District in Spring, 2017. Although a difficult time to have students miss class and schedule assemblies/presentations, I must tell you that it was well worth it. Tricia spoke to our entire High School student body through the scheduled Health and Physical Education classes over a span of two days. As most of you know, having a large population of students in any one area can sometimes be a bit challenging, particularly for the speaker. Our students were engaged from the moment Tricia started speaking and remained engaged in her presentation throughout. Tricia was able to touch the hearts of so many students during those two days. Our student body spoke of the presentations for days. I was quite surprised that her therapy dog was able to attract and touch the hearts of even some of our "toughest" students.

We are having Tricia return to our District this school year as well. Her presentation is that engaging and her message is one of such importance. If you are thinking about having this presentation for your students, do not hesitate. You will be far from disappointed and I would guess that you will be scheduling for the following year as well.

Sincerely,

JOANN FELLA, MA LPC
Student Assistance Coordinator
High School Anti-Bullying Specialist
